EDUCATION

Louisiana State University | Cumulative GPA 3.50

Baton Rouge, LA

Bachelor of Science: Chemical Engineering | Minor: Business Administration

December 2027

Awards: NSF S-STEM/PRISE Scholar; Shell Oil Company Technical Scholarship

PROFESSIONAL EXPERIENCE

Marathon Petroleum Corporation | *Incoming Process Engineering Co-Op* | Garyville, LA

August 2026 - December 2026

National Aeronautics & Space Administration | *Test & Development Engineering Intern* | Huntsville, AL

June 2026 - Present

- **Advance reactivation** of 1 rotary kiln test stand for NASA ECLSS Bosch carbon-reduction research by rebuilding incomplete legacy documentation into 2 engineering deliverables - a P&ID and wiring diagram.
- **Improve safety** readiness for 1 hydrogen test stand by designing and integrating hazard controls aligned with current NASA standards.
- **Align ES62** stakeholders on 3 readiness areas - system function, hazard controls, and ConOps - by presenting a formal design review to the Test Engineering Forum.
- **Built an automated AI-enabled workflow** to facilitate digitization for legacy ISS records, decreasing processing time by 20%.
- **Coordinated rotary-kiln integration** across 2 groups of engineers and technicians by aligning design and safety requirements.

Chevron Corporation | *Reservoir Engineering Intern* | Houston, TX

May 2025 - August 2025

- **Generated ~\$25MM** in potential savings and improved annual resource allocation by 7% through alignment of machine-learning depletion forecasts with engineering estimates.
- **Improved first-year** production predictive power by 6% across 150+ shale pads through comparison of depletion models on Chevron's machine-learning platform.
- **Cut data-processing** time by 20% through Python pipelines that cleaned and transformed pad-level spacing, geology, and completion data and visualized KPIs in Spotfire.

ADDITIONAL EXPERIENCE

LSU Cain Department of Chemical Engineering | *CHE 2171 Teaching Assistant* | Baton Rouge, LA

August 2025 - December 2025

- **Supported 80+ CHE 2171 students** in laboratory sessions by teaching material and energy balance problem-solving in Microsoft Excel and Aspen.
- **Returned graded work** with targeted feedback within 2 days of each due date.
- **Maintained consistent instruction across an 80-student course** by aligning lab guidance and grading expectations with the professor.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Society of Asian Scientists & Engineers | *Incoming Internal Vice President* | Baton Rouge, LA

July 2026 - Present

- **Selected to lead officer coordination**, accountability, and organizational continuity for the 2026-27 term.

Society of Asian Scientists & Engineers | *Professional Development Chair* | Baton Rouge, LA

April 2025 - July 2026

- **Exceeded event-attendance** targets by 40%, averaging 35 participants, through targeted connections with a diverse network of STEM professionals.
- **Drove a 30% expansion** in workshop offerings by building relationships with 10+ representatives across 5+ Fortune 500 companies and securing sponsorships and resources.

Southern Lotus Lion Dance Association | *Secretary* | Baton Rouge, LA

March 2023 - Present

- **Cut booking** time by 20% for 100+ clients after redesigning the performance-request portal and streamlining scheduling.
- **Supported events** serving 10K+ attendees and secured 5+ sponsors by coordinating cross-functional performance logistics for festivals, weddings, and Lunar New Year.
- **Launched** an annual scholarship program for 4 selected high school graduates by co-founding the initiative within a 501(c)(3) nonprofit.

AFFILIATIONS & SKILLS

Affiliations: SASE, Tau Beta Pi, MLT Career Prep, Southern Lotus Foundation | **Vietnamese:** Conversational

Technical: Python, VBA, LabVIEW, Aspen Plus, Excel, Power BI, Spotfire; P&IDs, process safety, test-stand design, data analytics
